

## *To Oppose the Increase in Natural Gas Rates By Interstate Natural Gas Company*

We the customer of Interstate Natural Gas Company would like to request that the Public Service Commission take a closer look at the proposed increase in our area. We feel this increase of 66% (\$9.00 per Mcf) is far greater than we can afford.

Only a couple of years ago when the new owner purchased this gas company, we had to replace the gas lines going to our property and the gas meters at our own expense.

Most of us in fact are on a fixed or modest income and cannot afford this huge increase. An increase of this amount will put many of us at a great disadvantage and create a hardship for many others.

We are not opposed to a modest increase, but a raise in rate as high as the one proposed is unreasonable.

We ask that the Public Service Commission closely evaluates the request by Interstate Natural Gas Company to reach a fair and reasonable rate for all parties involved.

Thank You,
